

Energy Technologies, Inc.

Rugged Power ♦ Global Solutions

Energy Technologies' (ETI) products, the Standard in rugged, high-reliability UPS, power conditioning, power distribution, power generation and computer peripherals, are used by defense, industrial, medical, and telecom experts worldwide. These are well-engineered, cost effective designs built to meet the demands and rigor of Military Specifications. Installations include shipboard, airborne, vehicular, off shore and land based applications where power is critical to proper and safe operations.

Rackmount & NEMA Power

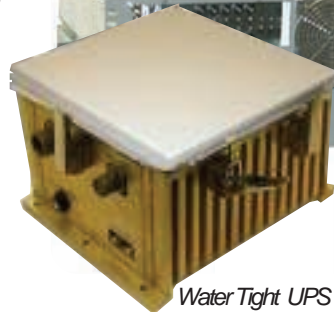

UPS Power Backup, Battery Expansions, Power Distribution and Frequency Conversion for Rugged Military, Industrial and Medical Applications

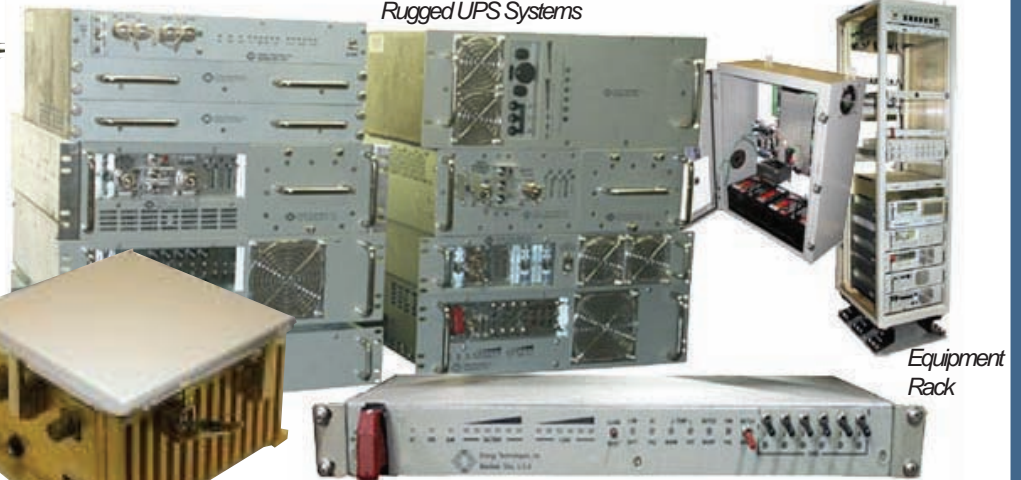

1"U" 2000 Watt UPS

NEMA Power System

Water Tight UPS

Rugged UPS Systems

Equipment Rack

Rackmount PDU

Tactical Power®

Power Generation, Backup, Conditioning & Power Inversion in transit cases for Rugged Tactical Applications

Tactical Power Plant®

Tactical Inverter®

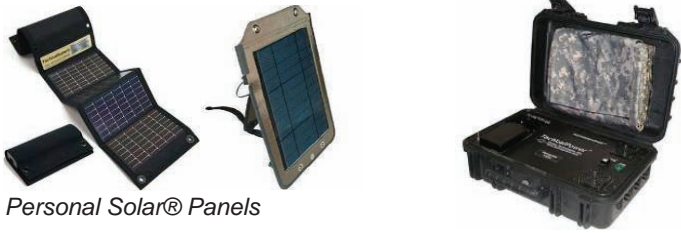

Tactical UPS®

Tactical Rackmount UPS®

Tactical Solar®

Power Generation from 3 to 4500 Watt output panels
Parallel or Series Panels for Higher Wattage/Voltages

Personal Solar® Panels

Solar Chargers & Battery Modules

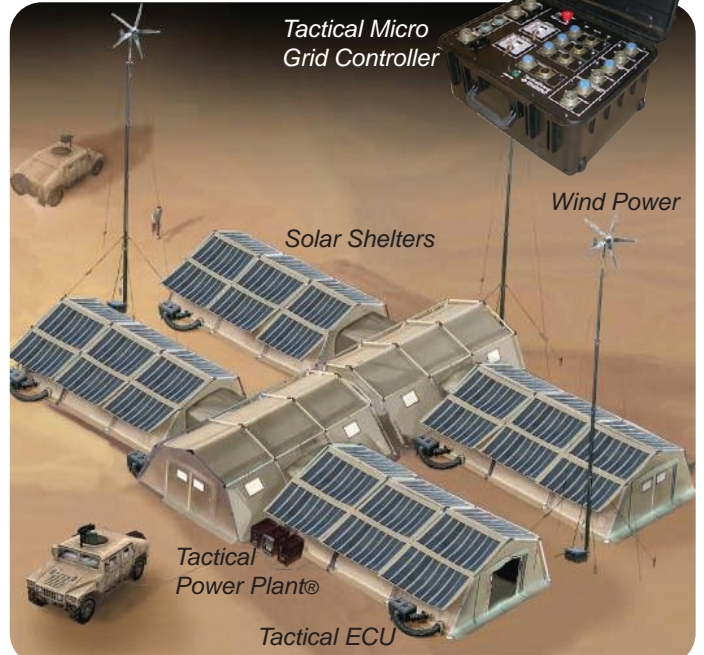

Tactical Solar® Panels

Tactical Solar Shelter®

Tactical Micro Grid® & Hybrid Energy Technologies®

ETI & Utilis USA have teamed to offer complete systems solutions for deployable shelters. Utilis manufactures a series of rapidly deployable tactical soft-wall shelters. By combining ETI's portable power sources either company can offer a total solution to deployable shelter requirements.

Tactical Micro Grid Controller
